# Content Creation

1. **Data Organization**
   - Categories of Data
   - Datasets are organized into folders
2. **Data Formats for SOS**
   - Types of Datasets
     - Textures
     - Time Series
   - Best Data Formats
   - ECE Projection
   - Layering Data
   - File Naming Conventions
   - System Interactions with Data
   - Tools to Create Datasets

3. **Animation Options in playlist.sos** http://sos.noaa.gov/support/playlist_edit.html
   - Frame Rate
   - Animate
   - Setting the Tilt
   - Animation Options for a Time Series
   - Dwelling on Frames
   - Stopping the Animation
   - Shortening a Dataset
   - Rotating and Animating
   - Auto Run
   - Audio with SOS

4. **Picture in a Picture**
   - PIP Information
   - PIP Options

5. **Labels and color bars**
   - Using Color Bars and Labels
   - Color Bars
   - Labels
   - Label Position
   - Label Options
   - Labels and Titles

6. **Adding New Datasets**
   - Simple steps to add new datasets

7. **Sharing Datasets**
   - As sites make new datasets, it is our hope that they will share them with NOAA so that we can distribute them to all of the SOS sites
